TO ADVERTISERS.

The circulation of this Journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted. We guarantee a regular monthly circulation of 4,000.

The Am. Association of Nurserymen

President, Col. U. B. Pearsall, Ft. Scott, Kan.; First Vice President, W. F. Heikes, Huntsville, Ala.; Secretary, Geo. C. Seager, Rochester, N. Y.; Treasurer, N. A. Whitney, Franklin Grove, Ill. Executive Committee: Irving Rouse, Rochester, N. Y., W. J. Peters, Troy, O., D. S. Lake, Shenandoah, Iowa.

Place for next meeting, Niagara Falls, first Wednesday in June, 1894.

Society of American Florists.

J. T. Anthony, Chicago, President; Robert Kift, Philadelphia, Vice-President; Wm. J. Stewart, 67 Bromfield St., Boston, Mass., Secretary; M. A. Hunt, Terre Haute, Ind., Treasurer. Place of tenth annual meeting: Atlantic N. J., August, 1894.

Am. Seed Trade Association.

W. Atlee, Burpee, President; D. I. Bushnell, First Vice-President; S. F. Leonard, Second Vice-President; A. L. Don, New York, Secretary and Treasurer. Place of twelfth annual meeting: Toronto, June, 1894. Applications for membership should be addressed to Wm. Meggatt, Chairman membership committee, Wethersfield, Conn.

American Pomological Society.

Hon. P. J. Berckmans, Augusta, Ga., President; Chas. L. Watrous, Des Moines, Iowa, First Vice-President; Geo. C. Brackett, Lawrence, Kansas, Secretary; Benj. J. Smith, Cambridge, Mass., Treasurer. Place of next meeting: San Francisco, Cal.

We purpose to mail this paper to every nurseryman, florist and seedsman in the United States, and to leading firms in the same vocations in foreign countries. We do not solicit subscriptions. If you value THE PRACTICAL NURSERYMAN, please accept it with our compliments

The American Association of Nurserymen.

By the time this Journal reaches its destination nurserymen who expect to attend the Nurserymen's Convention to be held at Niagara Falls on the 6th of June, should be ready to depart on their journey. The historic Cataract House, now in its sixty-eighth year, and without a doubt the most famous hotel in the country, has been selected by the Executive Committee as the place of meeting. It is the only one of the large hotels having a hall large enough for the sessions. The following papers are promised:

Address—Hon. Roswell P. Flower, Governor of New York State.

President's Annual Address—U. P. Pearsall, Ft. Scott, Kan.

Most Profitable Methods of Introducing New Fruits—J. H. Hale, S. Glastonbury, Conn.

The Nursery Industry:—In the East, W. C. Barry, Rochester, N. Y. In the South, P. J. Berckmans, Augusta, Ga. In the West, H. Augustine, Normal, Ill. In the North, J. Cole Doughty, Lake City, Minn.

Nurserymen's Kicks—Hon. N. H. Albaugh, Tadmor, O.

Natural Value of Synonyms—Prof. L. H. Bailey, Ithaca, N. Y.

Why are Foreign Grown Shade and Evergreen Trees Sold so Largely by American Nurserymen?—Irving Rouse, Rochester, N. Y.

Forestry—Robert Douglas, Waukegan, Illinois.

New Fruits also Cause of Low Prices for Nursery Stock—Charles A. Green, Rochester, N. Y.

Nurserymen's Novelties—C. Morden, Niagara Falls, N. Y.

Our Foreign Relations—Geo. A. Sweet, Danville, N. Y.

Culture of Standard Pears—Wing R. Smith, Syracuse, N. Y.

The Rocky Mountains—Will they be Fruitful?—S. M. Emery, Bozeman, Mont.

New Hardy Apples for the Northwest—H. W. Ash, West Union, Ia.

Those who cannot be present at the Convention should send at once \$2.00 to George C. Seager, Secretary, Rochester, N. Y., this will secure membership in the Association and copies of the printed transactions, essays, &c.

Pecan Tops.

Editor Orchard and Garden: The enclosed is so good that I wish to see it once more in print:

"Mr. Editor: Two years ago I grafted some pecans, culling off the top of stock just below the ground, and these pecan tops I set out. I don't suppose they had over one inch of wood that had been in the ground. Noticing that they had made a nice growth this year, I concluded to dig them, and I found, not one, but from two to three tap roots, very strong and deep. So you see the theory, that it won't do to cut the tap root of the pecan won't do. I have noticed this before in transplanted stock. 'Rah for Stringfellow—L. T. SANDERS, Plain Dealing, La."

Not knowing Mr. Sanders, I don't know whether he is talking through his hat or in dead earnest, but if he believes pecan tops, such as he has above described will grow at Pilot Point, Texas, I make him this offer, viz: He to place 100 such tops in the hands of Dr. Ragland at proper season of the year, and for every one that lives at all through the first year, I will pay into the hands of Dr. Ragland \$5, and for every one that fails he is to pay over to Dr. Ragland \$1, all such money to be applied by Dr. Ragland for the benefit of the most deserving widows and orphans in Pilot Point. 'Rah for more light on the pecan top question.—W. W. Stell, in Texas Farm and Ranch.

Our experience coincides with that of Mr. Sanders. In grafting pecans this Spring in the nursery rows at our branch nurseries at Biloxi, Miss., the plants were cut off a little below the surface and the tops planted as an experiment. Nearly every one of these tops are growing and have made good strong roots. If they want tap roots they will make them.—W. F. H.

Improved Russian Mulberry.

A superior mulberry of the Russian type would be a great acquisition. Among so many thousands of seedlings planted throughout the Northwest there must be a few producing fruit of good size and quality. Should any one know of such trees we would be glad to see specimens of the fruit.

The Jujube Tree.

It does not seem to be generally known that this tree, a native of Egypt and Syria, is absolutely hardy in most parts of America. In the vicinity of Philadelphia it is hardy as an apple tree. It was a general belief, in the past, that it was tender, and the famous Bartram planted one alongside of his house, in order that it might get some of the warmth and protection of the walls. One of the earlier Philadelphia merchants, Duval, who had a large conservatory, grew the tree in a tub, protecting it in the conservatory during the winter. Finally when it became too large to be so protected, it was left out in the winter to die, but it lived and became one of the attractions of his beautiful country place, in the vicinity of Philadelphia. From this tree numbers have been propagated, and are now found in collections around Philadelphia, although the original tree itself died a few years ago after having been blown over. It is a very interesting tree in many respects. Its habit is distinct from almost all other trees, by reason of the peculiar spread of its branches, and the branches themselves are flexuose, or zigzag. The flowers, green and insignificant, however, are borne on what seem to be leaves, and in the fall of the year these leaves drop, excepting those which are to produce the fruit. These seem to have a greater vitality, and remain on the tree until the fruit perfects. The fruit itself is about the size of a marble, and of an orange brown color. The pulp around the stone is the part from which the Jujube paste is made. This tree, as well as a dwarf species called *Paliurus aculeatus*, which is closely allied to it, has been taken for the plant from which the crown of thorns placed on the Saviour's head, was formed, and the term Spina-Christi is frequently applied to either of these plants, possibly for no other reason than because they are common, spiny plants in Palestine. The crown of thorns depicted on the Christ Crucified, of Rubens, seems to be intended to represent our Honey Locust, *Gleditsia triacanthos*, which, however, does not grow in Palestine, although some have thought that they can see some resemblance to the spines of the Jujube tree.—Meehan's Monthly.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

THE HUNTSVILLE WHOLESALE NURSERIES.

Mr. Heikes expects to be present at the meeting of the American Nurserymen's Association which will convene at Niagara Falls, June 6th. He expects to reach there on the morning of the 5th, and will stop at the Cataract House, which is headquarters. There are always a goodly number who make it a point to get to the place of meeting a day in advance of the organization. It is a good time to meet old friends and to make new acquaintances, free from the obligations to which we are dutifully bound during the sessions.

We print in this issue present prices for the fall of 1894. We may find it practicable to change them either higher or lower as the season advances. They may be taken as our present opinion of what prices should be made to enable us to move a very large stock. It is our desire that our customers shall consider these prices very low for the grade and quality of stock we grow and send out, and that they will send us their early orders.

Our nurseries now show very little of the effects of the "Freeze" in March, except in peach buds and peach seedlings. The stand of these is very poor, worse than we anticipated at our last writing. Plum and Pear buds proved to be very little injured. Cherries not any. The growth of our stock at present is very fine, and our stock will be larger than ever before in Pears, Plums, Cherries, Mulberries, Climbing Roses and Figs.

The demand for Japanese Plums, especially for Willard, Abundance and Burbank is likely to be heavy this year, and as they become better known the demand will be increased for such sorts as Yosobe, Yellow Japan, Berckmans (Sweet Botan), Normand, Baily, Ogon and Satsuma. Our stock of Japan Plums on Plum is very large and nurserymen who desire to make a specialty of them through their agents should correspond with us.

Our stock of Standard Pears, two years old, for the Fall of 1894 will be very large and fine. Notice the low prices quoted in our Price List.

Notice the special quotations we make in Climbing Roses for December and Spring delivery.

UNSOLICITED COMMENDATION.

PENNSYLVANIA, May 19, 1894.—The box of Abundance plums arrived May 10th, in splendid condition; No. 1 trees, and am very sorry I did not get more of them.

IOWA, April 24, 1894.—Never got trees packed better than yours.

ILLINOIS, April 27, 1894.—The nine boxes of trees from you are being handled to-day and I find trees just splendid.

DELAWARE, April 27, 1894.—The stock was perfectly satisfactory.

INDIANA, April 14, 1894.—The box of plum trees "Marble" came several days ago, but as I was up the river delivering trees I did not get them unpacked until to-day. They are in perfect condition and have the best roots I have ever seen.

MICHIGAN, April 14, 1894.—The box of trees "pocket" and my order came to-day, and I must say they are above my expectation in grade and quality; nice, smooth straight bodies, well rooted and in good order every way.

MISSOURI, April 14, 1894.—The box of plums "Manage" reached me in good condition. Trees well rooted and all right, only more branched than I expected.

IOWA, April 13, 1894.—Box of cherries and plums arrived here at my home yesterday morning at 8:30. Shipped on the 10th. Came through in short notice. Opened the boxes and found the trees nice, with good roots, well packed and in good condition.

NEW JERSEY, April 10, 1894.—Box of trees received in good condition. The trees are larger than I expected and well rooted. Will order more before long.

MICHIGAN, April 9, 1894.—The four boxes of trees received during the cold snap, and in consequence were frozen solid. They were however allowed to thaw out in the boxes, and opened up very nicely.

INDIANA, April 6, 1894.—Goods arrived in fine condition. Was well pleased.

WISCONSIN, April 5, 1894.—Box of trees opened in the best possible condition.—Are fine.

ILLINOIS, April 5, 1894.—Stock arrived in due time and opened up O. K.

LOUISIANA, April 4, 1894.—The box of trees received on the 29th, in very good condition.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

KIEFFER, GARBER AND LeCONTE--Two Year Style.

These were very strong, handsome one year trees, 4 to 5 feet high, and many of them $\frac{3}{4}$ inch calibre; but they were so much injured by the March freeze, that they were cut down close to the ground and one shoot allowed to grow. They will be topped at 32 inches and made to branch, and will have the appearance of two year trees. Only good shaped trees will be sent out as two year style.

" " " " No. 1.....	<i>Zenith</i>	70	6 00	50 00

Grown from cuttings at our branch nurseries, Biloxi, Miss. We will accept orders at 50 per cent. off above prices, for plants to be shipped after the first of December or for Spring delivery. Price of boxes or bales to be added. Delivered at depot at Biloxi. Orders sent in by Northern customers before the 1st of December for Spring delivery, we will pay freight to St. Louis, and hold in cold storage there until wanted. These plants will have three or more branches and will be cut back to 24 to 30 inches. The roots are very fine.

FIGS.

	CIPHER.	Per 10	Per 100	Per 1000
One year from cuttings, 2 to 3 feet.....	<i>Worsted</i>	\$1 00	\$ 8 00	\$ 75 00
“ “ 1 to 2 feet.....	<i>Wizzard</i>	80	7 00	65 00

Grown at our branch nursery, Biloxi, Miss., where they escape early frosts. They mature in good season and the wood is not liable to be injured by frost in the Fall and Winter. The best variety for orchard planting and canning is the Celestial, which we are growing largely. We can also supply Brown Turkey, Brunswick and Lemon.

HEIKES--HUNTSVILLE--TREES.

Always address all correspondence to

W. F. HEIKES, Manager,
HUNTSVILLE, ALABAMA.

UNSOLICITED COMMENDATION.

ILLINOIS, April 28, 1894—The stock was most excellent. Will be glad to remember you for the future.

MISSOURI, April 30, 1894.—The transplanted stock is looking fine. Am very much pleased with all stock I received.

MICHIGAN, April 25, 1894.—Trees arrived all right; finest roots I ever saw. You will hear from me in the future.

INDIANA, May 7, 1894.—Four boxes trees received all O. K. Nice lot of trees; opened up in good shape.

IOWA, May 19, 1894.—I also wish to say to you that we have been highly pleased with your treatment of us this Spring and your prompt service. Your stock has given the very best satisfaction, and your packing is unexcelled.

NEW YORK, May 14, 1894.—Box of trees came in fine order, and were a fine lot of well rooted trees.

MICHIGAN, May 14, 1894.—I have most of the small trees lined out into nursery rows, and they are making a fine start.

NEBRASKA, May 14, 1894.—The trees you sent me were fine and in excellent condition.

TENNESSEE, May 1, 1894.—Glad to be able to say the three boxes of peach and one of roses which you sent were fully up to order, and more too, and in as fine order as could be, for which accept thanks. When I want things all right from this hence, I consider you headquarters in your line.

IOWA, MAY 12, 1894.—The trees came all O. K. in good condition, and think most of them will grow.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filled at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit *directions as to shipping*, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES.—The cost of package must be added to the prices quoted in this list, as follows: Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

PACKING.—Goods will be packed in moss, and special care taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CAUTION.—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired, we will allow 30 to 60 days from date of shipment, to responsible,

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, Bank, if possible, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent. per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

FORMS OF PAYMENT.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange", or add ¼ of one cent, to the amount of the bill for the cost of collection.

GRADES.—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

GUARANTEE OF GENUINENESS.—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us, and without our orders for their disposition.

A STUMP PULLER.

In the Genuine Smith Grubber we claim the most perfect machine ever invented for pulling trees, stumps, cleaning timber-land, moving buildings, and for work where a windlass is necessary.

We claim that in proper use the machine will pay for itself in a week; inexperienced hands have averaged one-half acre a day in close timber with this machine; it practically does away with the labor of ten men; trees are pulled out of the ground more rapidly than two men can chop them down; it requires but one minute to pull a tree six and seven inches through!

More than 5,000 of these machines have been sold since the first patent was issued, in 1882. No purchaser has ever entered a complaint. We challenge such! Our machine is a pronounced success.

We have just tried your machine in pulling Black Jack and Old Field Pine. It is more powerful than we supposed, and the effective work done with it is surprising.—W. F. HEIKES.
